- Material: PVC
- Design: Wood Grain, Marble, Brick, Stone, Plain Color Etc.
- Highlight: **Wood Grain lamination door film, Pvc Thin Film Scratch Resistant,**

Product Description

Super Matte Wood Grain PVC Lamination Film For Door Skin

Product Description:

Polyvinyl Chloride (PVC) is the main ingredient in our Realsun Deco PVC Foil, a type of synthetic plastic that provides great strength, flexibility, and simplicity for processing. It also has a variety of colors, patterns, and textures, while maintaining a premium look at an affordable price. Plus, it can imitate the appearance of real materials like wood and stone.

Realsun Deco PVC Foil is highly adaptable, working effectively on many surfaces, including walls, doors, furniture, and more. Moreover, it is renowned for its strength and resistance to deterioration, making it a popular choice for spaces with high foot traffic.

In addition, the foil is low-maintenance, as weekly cleaning with a wet cloth is all it needs. Moreover, it is much more economical than natural materials, allowing you to have the same sophisticated aesthetic without the expensive costs of using actual materials.

Furthermore, the manufacturer provides a wide range of styles and finishes, making it possible to customize and tailor it to meet any project requirements and individual design preferences.

Realsun Deco PVC Foil is widely used in projects for walls, furniture surfaces, retail displays, interior doors, kitchen and bathroom cabinets, and many more, both for home and commercial spaces.

Features:
