Product Description

PVC Membrane Film Soft Touch Pvc Foil Rolls Glossy Wrapping 0.10mm-0.50mm

Product Description:

Material Composition

Our PVC Membrane Film is primarily composed of Polyvinyl Chloride (PVC), which is a versatile synthetic plastic. Known for its robustness, adaptability, and ease of manufacturing, PVC ensures that our foil meets the highest standards of quality in terms of both strength and flexibility.

Visual Appeal

We provide an array of choices in colors, designs, and textures for our PVC Membrane Film, designed to emulate the look of natural materials such as wood, stone, textiles, and metal. This allows the product to offer the sophisticated look of real materials at a fraction of the cost while preserving a high-end aesthetic.

Versatility in Use

The foil's design makes it suitable for a multitude of applications, including wall coverings, door surfacing, cabinetry, and furniture. Its adaptability allows it to perform exceptionally across different surfaces and in various settings within a space.

Durability

Known for its impressive durability, Realsun Deco PVC Membrane Film is resistant to wear and tear, making it an ideal choice for places with high foot traffic. The outstanding longevity of our product ensures lasting beauty and performance.

Maintenance

Our PVC Membrane Film is incredibly easy to maintain. Once installed, it requires minimal upkeep. A simple weekly wipe-down with a damp cloth is sufficient to keep it looking as good as new, ensuring hassle-free maintenance.

Cost-Effectiveness

PVC Membrane Film's affordability is one of its most appealing features. The material offers the possibility to craft luxurious designs and atmospheres without the exorbitant expenses associated with natural materials.

Customization

Our manufacturers present an extensive selection of styles and finishes, allowing for a high degree of customization to meet the specific needs of a project or cater to individual design tastes.

Application Diversity

Widely utilized in both residential and commercial settings, the decorative PVC foil finds its place in wall paneling, furniture coverings, retail fixtures, interior doors, and kitchen and bathroom cabinet surfacing, among other applications.

Features:

Product Name: PVC Membrane Film

Packing: Pack In Roll

Width: 1260mm, 1400mm

Surface: Glossy/ Matt/ Embossed/ Super Matt/ Soft Touch

Application: Furniture/ Cabinet/ Door/ Wall/ Ceiling/ Profile, Etc.

Length: 100m-400m

Also known as: pvc lamination foil, pvc door foil, pvc lamination foil

Applications:

Diverse Laminating Processes for Various Applications

Membrane Press (Vacuum Press) Application: Ideal for surfaces such as MDF, particleboard, wooden board, and fiberboard.

Commonly used for doors, kitchen cabinets, wardrobes, and other furniture, it also efficiently covers embossed boards, enveloping all five surfaces simultaneously.

Thickness: 0.20-0.50mm

Width: 1260mm, 1400mm

Length: 100-300m/roll

Wrapping Profiles: Suited for a variety of profiles, including wood, aluminum, and PVC. This process is used for door frames, window sills, base channels, PVC ceilings, and much more.

Thickness: 0.12-0.18mm

Width: 40-1260mm

Length: 300-800m/roll

Cold Laminating: Designed to adhere to flat panels of wood, steel, aluminum, and PVC. It's a choice process for covering doors and furnishing items with flat surfaces.

Thickness: 0.12-0.20mm

Width: 1240-1260mm

Length: 300-500m/roll

Hot Laminating: Specifically geared towards PVC, steel, and aluminum panels. This method is employed for enhancing doors, skirtings, and other items.

Thickness: 0.16-0.30mm

Width: 1260mm

Length: 200-300m/roll

Self-adhesive Laminating: This versatile laminating option can be applied to any smooth surface, making it perfect for furniture and interior decoration enhancements.

Thickness: 0.10-0.20mm

Width: 600mm/1220mm

Length: 5-50m/roll

Product Consultation: Our knowledgeable team is available to provide detailed information about the PVC Decorative Film, including its features, benefits, and application techniques. We can help you select the perfect design and specification for your project needs.

Installation Guidance: Although our product is designed for easy application, we provide detailed instructions and tips to help you achieve a professional finish. Should you have any questions during the installation process, our team is ready to assist you with step-by-step guidance.

Troubleshooting: If you encounter any issues while using our PVC Membrane Film, our technical support staff is on hand to help diagnose and resolve problems quickly and efficiently, minimizing any inconvenience.

Maintenance Tips: To ensure the longevity and continued high performance of your PVC Membrane Film, we offer advice on how to properly care for and maintain the product.

Warranty Support: Our PVC Membrane Film comes with a standard warranty, and our customer service team is available to help you with any warranty claims or questions you may have about coverage.

While we strive to provide all necessary support through our documentation and online resources, we understand the importance of personal assistance. Should you require additional help, our dedicated support team is committed to providing the highest level of service to ensure your complete satisfaction with our PVC Membrane Film.

FAQ:

Q1: What is Realsun Deco PVC Membrane Film used for?

A1: Realsun Deco PVC Membrane Film is primarily used for surface finishing of various materials such as wood, plastic, and metal. It is commonly applied to furniture, doors, kitchen cabinets, and interior design elements to enhance aesthetics and provide a protective layer.

Q2: Can I place a small order for Realsun Deco PVC Membrane Film to test the quality?

A2: The minimum order quantity for our PVC Membrane Film is 3000m/model. This quantity helps ensure consistency in production and quality. However, you can discuss your specific needs with our sales team to see how we can accommodate your request.

Q3: What are the pricing and payment terms for Realsun Deco PVC Membrane Film?

A3: The price for our PVC Membrane Film is negotiable. We aim to provide competitive pricing based on your requirements. As for payment terms, we accept T/T with 30% down payment and the balance of 70% to be paid before shipment.

Q4: What is the delivery time for an order of PVC Membrane Film?

A4: The standard delivery time for our PVC Membrane Film is 15-20 days after the receipt of the down payment. This timeframe allows for production scheduling and quality assurance processes to ensure you receive the best product.

Q5: How is Realsun Deco PVC Membrane Film packaged and shipped?

A5: Our PVC Membrane Film is carefully packaged in rolls to protect the film during transportation. We ensure that the packaging is secure and suitable for long-distance shipping from our place of origin in Foshan, China, to your location.

Q6: What is the supply ability of Realsun Deco for PVC Membrane Film?

A6: Realsun Deco has a robust supply ability, capable of producing up to 500000m/month of PVC Membrane Film. This ensures that we can meet both large-scale and ongoing order requirements with reliability and efficiency.
